

## **FEATURES**

- Universal 85 305VAC or 120 430VDC input voltage
- Accepts AC or DC input (dual-use of same terminal)
- Semi-potted process, fanless design
- Operating ambient temperature range: -40 $^\circ$ C to +85 $^\circ$ C
- Low Ripple & Noise, high efficiency
- Active PFC
- 150% peak load output for 1 second
- High I/O isolation test voltage up to 4000VAC
- Output short circuit, over-current, over-voltage, over-temperature protection
- 3 years warranty
- Operating altitude up to 5000m
- Safety according to UL/IEC62368-1, IS13252 (Part1), IEC60335-1, EN61558-1

LMF750-23BxxUH(-C) series is one of Mornsun's enclosed fanless semi-potted ultra narrow AC-DC switching power supply, it is suitable for industrial and outdoor occasions where the application environment is relatively harsh. It features 305VAC all operating conditions, universal AC input and at the same time accepts DC input voltage, cost-effective, high PF value, high efficiency, high reliability, 150% peak load output and operating altitude up to 5000m. These converters offer excellent EMC performance and meet UL/EN62368, EN60335, EN61558, GB4943 standards and they are widely used in areas of industrial, lighting, electricity, security, telecommunications, smart home etc.

Selection Guide								
Part No.	Rated Output Power (W)*	Nominal Output Voltage and Current (Vo/Io)	Output Voltage Adjustable Range (V)	Efficiency at 230VAC (%) Typ.	Room Temperature Max. Capacitive Load (µF)	Low Temperature Max. Capacitive Load (µF)

### Product Characteristic Curve

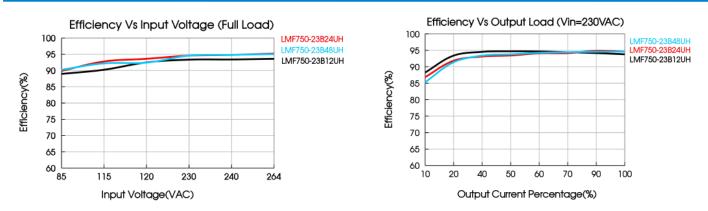

Note: 1. With an AC input voltage between 85 -180VAC and a DC input between 120 - 254VDC the output power must be derated as per the temperature derating curves;

2. This product is suitable for applications using natural air cooling; for applications in closed environment please consult Mornsun FAE.

Note: This is the schematic diagram of the bottom installation, install with M3 x 6 round head screws, it is necessary to apply thermal grease on the bottom of the product, derating refer to with aluminum plate curve.

#### Note:

- For additional information on Product Packaging please refer to www.mornsun-power.com. Packaging bag number: 58220326; 1.
- Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity <75%RH with 2. nominal input voltage and rated output load;
- 3. The room temperature derating of  $5^{\circ}$ /1000m is needed for operating altitude greater than 2000m;
- 4. All index testing methods in this datasheet are based on our company corporate standards;
- In order to improve the efficiency at high input voltage, there will be audible noise generated, but it does not affect product 5. performance and reliability;
- We can provide product customization service, please contact our technicians directly for specific information; 6.
- Products are related to laws and regulations: see "Features" and "EMC"; 7.
- The out case needs to be connected to PE ( ) of system when the terminal equipment in operating; 8.
- The output voltage can be adjusted by the ADJ, clockwise to increase; 9
- If product involves multi-brand materials and there are differences in color etc, please refer to the standards of each manufacturer; 10.
- Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by 11. aualified units;
- The power supply is considered a component which will be installed into a terminal equipment. All EMC tests should be confirmed with 12. the final equipment. Please consult our FAE for EMC test operation instructions.
